Rose and Dahlia are a BONDED PAIR and must be homed together. Dahlia is only a special needs girl because she has been blind since she was 6 weeks old. We had her eyes evaluated at Animal Eye Care in Fremont. Nothing more is needed since she had an infection in both eyes. The girls are petite in size and weigh 55-60 lbs, Rose does pull on a leash. Dahlia likes to walk close to your heel leg for guidance. Big cuddlers. Lived with several kids. Do well with other dogs and cats. Spayed on 11/16 and will be ready in two weeks after the final vaccinations. Love these girls!
