Home Alone: Used to having someone around most of the time but appears fine when left.

Lucy is a well behaved and energetic half Golden girl. She is afraid of new faces at first but warms up in a short while. Because of this busy places and dog parks are too overwhelming for her. A quiet setting with walks in less crowded areas would be best. She loves to play and cuddle. She should not live with cats or birds. She is very good in the house and does not get into things. She is a sweet young lady.
