Other Dogs: Good, very friendly and playful
Owner Exp.: needs pup experience..young dog, no training
Home Alone: Barks when people leave since he is used to having someone around

Baloo the bionic dog is looking for his forever family! Earlier this year, he had surgeries in both knees (TPLO) to repair torn ligaments. He is now looking for a family to cherish him and take him on all the great adventures - walks, picnics, hikes, etc. He loves other dogs and is very playful, loves to walk and is getting used to walking on a harness, and is all around a terrific dog. He would be happiest with one or more large dog siblings, as well as with older kids (8 years and up) since he's very strong and can be rambunctious. He will be everyone's best friend and playmate during the day and snuggle buddy at night. Baloo's mom was a golden retriever and his dad a german shepherd. He is a bit of a watchdog and does bark, so needs at least some outdoor space and room to run and play.
